

## Window Safety

Please join us for a presentation from a nurse champion!  
San Diego has experienced an unfortunate trend in young children falling from windows. To mitigate this issue Safe Kids has formed a task force to investigate the cause, research best practice in prevention and develop materials to educate the public.

This presentation will be provided by Lura Bickford RN, a nurse currently working in the Pediatric Intensive Care Unit at Rady Children's Hospital and student at

Western Governors University.

This presentation is a culmination of her work as an intern with Safe Kids San Diego

**Time: 9 a.m. to 10:30 a.m.**

**May 17 2018**
