

Eczema

Research Study

Does your child suffer from chronic moderate to severe eczema or atopic dermatitis?

Rady Children's Hospital is conducting a research study of an investigational medication for moderate to severe eczema or atopic dermatitis.

Qualifications include:

- Children from the ages 2 to 17 years old
- Must currently have moderate to severe eczema (covering at least 25% of their body)

Qualified participants will receive:

- Study medication and study care at no cost
- May receive reimbursement for certain expenses incurred for your child's time

Please call:

858-576-1700 ext 4295
