

Advances in the Practice of Pediatrics

HILTON SAN DIEGO RESORT
San Diego, CA
MARCH 23-25, 2018

REGISTRATION NOW OPEN!

We would like to welcome you to San Diego for our 32nd Annual Advances in the Practice of Pediatrics Conference. This course is designed for practicing pediatricians, family practitioners, nurses and allied health professionals caring for children. Attending our course will provide you with the latest clinical updates in "hot" pediatric topics and evidence-based medicine. This year we will have dedicated time for a number of topics in Pediatric Dermatology.

Be a part of our **HANDS ON SIMULATION EXPERIENCE** on common medical equipment and medical emergencies in the pediatric medical office setting. Participants will have the opportunity to use and engage with the latest state-of-the-art equipment to review necessary skills for dealing with medical equipment and medical emergencies in the context of the medical office.

Objectives

- Identify sleeping situations associated with risk of infant death and develop an approach to promoting best practices addressing safe sleep
- Identify best practices/expert recommendations related to opioid use; pneumonia; and asthma in the treatment of youth
- Identify best practices related to the identification and treatment of common dermatology conditions in childhood/adolescence
