Cognitive Communication in Children and Adolescents with Acquired Brain Injury

Saturday, March 21, 2020
San Diego, CA

COURSE DESCRIPTION

Traumatic Brain Injury (TBI) is the leading cause of disability in children and adolescents. Brain injury during childhood is complex and unique. The road to recovery is a long process and the initial return to school is just the beginning. Speech-language pathologists, school psychologists, social workers, administrators, and educators are critical players and resources on this journey that continues over time. This course will help professionals working with children and adolescents with TBI understand the unique medical, cognitive, behavioral and physical characteristics of childhood TBI, current cognitive-communication assessment and intervention techniques for youngsters affected by TBI, and explore evidenced-based practices for reintegrating students with mild, moderate and severe brain injuries back to school.

LEARNING OBJECTIVES

- Participants will explain the impact of a brain injury during childhood
- Participants will identify the systems of care in the rehabilitation continuum
- Participants will describe the principles of assessment and intervention planning for children with brain injury
- Participants will identify 3 factors to consider in order to maximize success during the school re-integration process

AGENDA

| | |
|-------------|-------------------------------------|

REFUND POLICIES

Cancellations: It is the goal of Rady Children's Hospital San Diego to not cancel scheduled education courses; however, we reserve the right to cancel or reschedule any course due to low enrollment or other unforeseen circumstances. Courses will be cancelled at least 48 hours in advance. Registered participants will be notified by phone or email. Full refund of course fee/deposit will be issued if class is cancelled by Rady Children's Hospital-San Diego.

Refunds: If the participant decides to cancel, Rady Children's Hospital San Diego must be notified at least 48 hours in advance (excluding weekends) prior to the date of the class. Full refund of course fee less 20% administrative fee will be mailed if cancellation was made within 48 hours of the originally scheduled class. No refund will be issued if registration was cancelled less than 48 hours or if "no show."

Rady Children's Hospital San Diego provides notice to its public that when an individual has any concerns with the material presented in this document or course that the department has not addressed, he or she is encouraged to contact the Departments of Speech-Language Pathology and Audiology at 858-966-5930. If concerns have not been met, the public may also contact the Rady Children's Hospital Patient Relations Department at 858-966-4950 or report any concerns or register complaints about a Joint Commission-accredited health care organization by calling 1-800-994-6610. Proceeds from this course may support continuing education for speech-language pathologists.

FEATURED PRESENTERS

Susan Biffi, M.D. is a rehabilitation medicine specialist at Rady Children's Hospital-San Diego and an assistant professor at UC San Diego School of Medicine. She is board certified in pediatrics, physical medicine and rehabilitation, pediatric physical medicine and rehabilitation and brain injury medicine.

Kathleen A. Munroe, M.S., CCC-SLP, CBIS is a speech-language pathologist at Rady Children's Hospital specializing in childhood traumatic brain injury for 30 years.
