

Let's Go To Picnic Group!

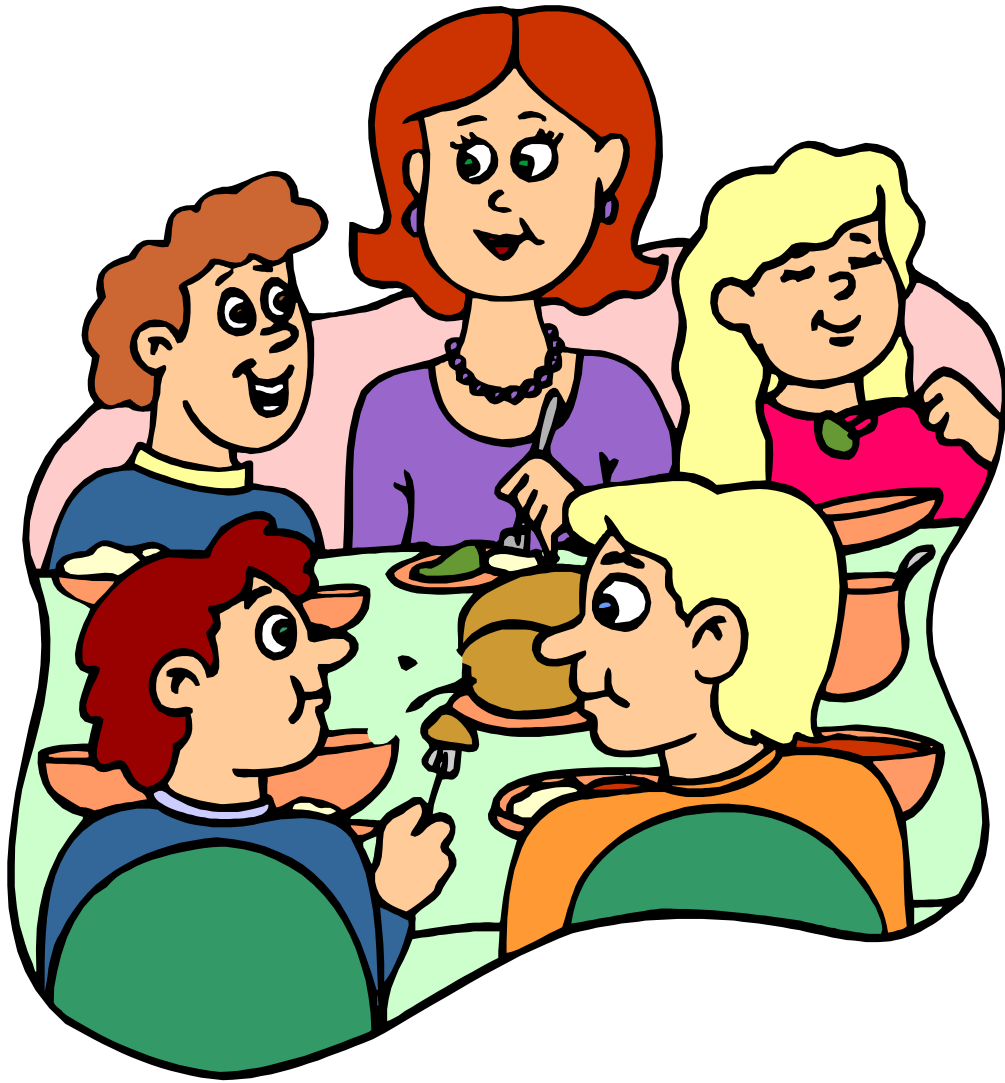

At Picnic Group I get to play
with new friends.
It's fun to play with friends!

At the door I say good-bye to
_____ . I go to my class
and they go to their class next door.

We play with bubbles
and even brush our teeth.

Then we wash our hands,
and we all get to sit down at the table.

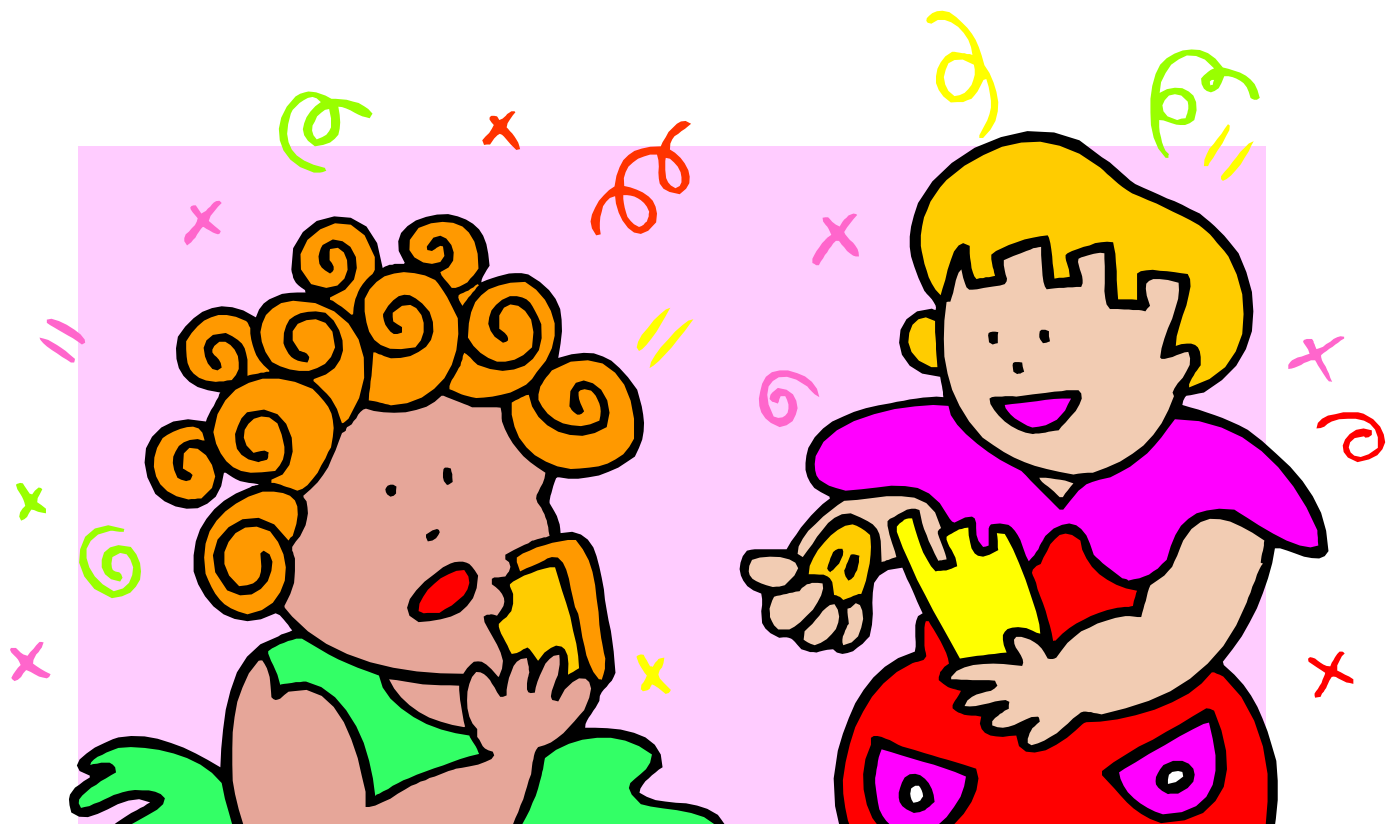

We use a plate, a napkin, and a cup.
We can even eat with our fingers!

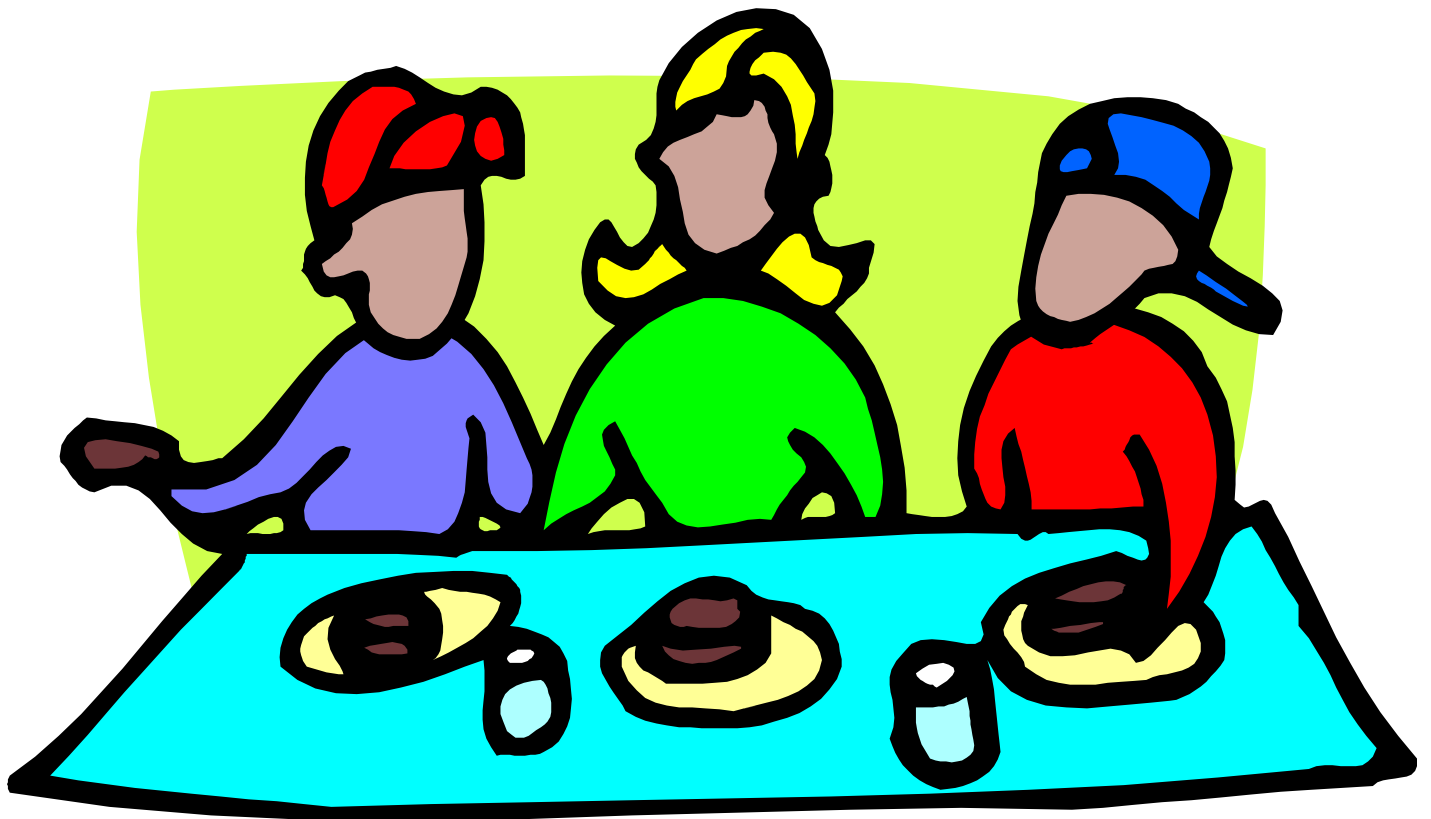

Our teachers will give us lots of different foods. Some are red, some are green, some are white, and maybe even orange.

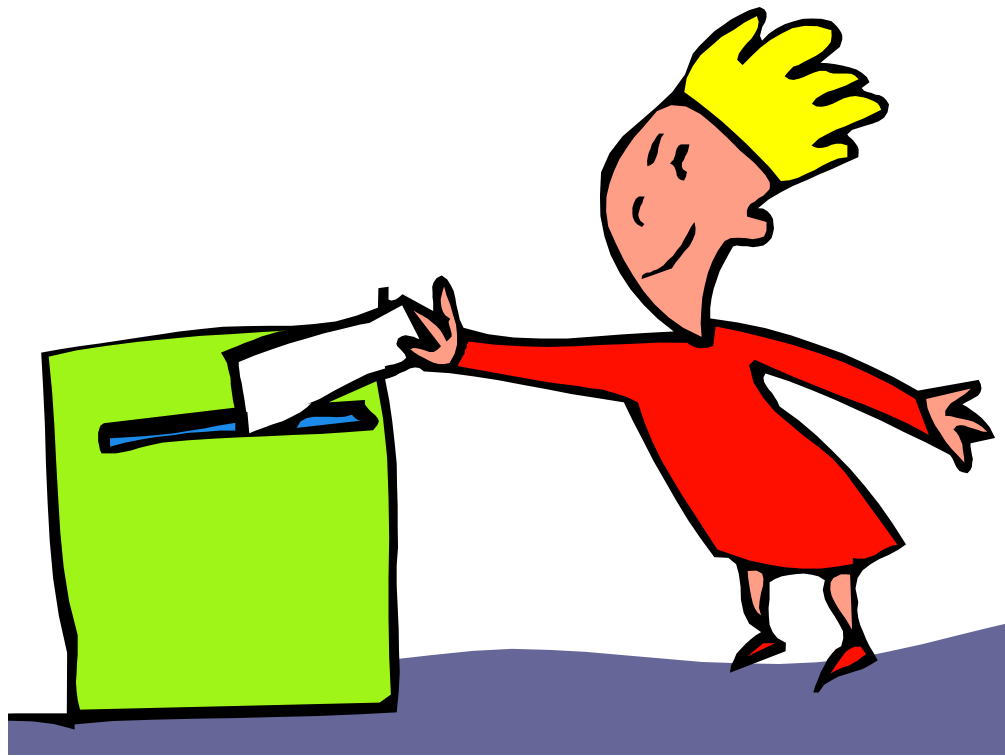

The food can be hard, soft, chewy, crunchy, and may be mushy or squishy.

I can use my fingers to touch it.
I can touch it to my lips
and blow it or kiss it.
I can even use my tongue
to lick and taste it.
My big strong teeth are for
biting and chewing.
It's fun to try new things!

We pass the food to all of our friends and then we get to have something to drink. I can try juice, water, milk, or sometimes something new!

After we eat and drink we kiss our food good bye and throw it in the trash, then it's time to wash our hands and say good-bye to my teachers and my friends.

When I am done with Picnic Group
I get to see my _____
and we can shout hooray!

Picnic Group is fun!
