

RADY CHILDREN'S HOSPITAL-SAN DIEGO AND UC SAN DIEGO SCHOOL OF MEDICINE

Division of Child & Adolescent Psychiatry Virtual Grand Rounds

Tuesday, September 28, 2021, ~ 12:30 pm-1:30pm PST

Topic

ASD-Psychopharmacology

Course Description

General and child and adolescent psychiatrists, residents, fellows, social workers, psychiatric nurses, and medical students.

Objectives

1. Identify target symptoms in ASD that can be treated with medication.
2. Recognize differences in dosing and side effect profiles seen in youth with ASD.
3. Review failed trials targeting core symptoms of ASD.

Adelaide Robb, MD

Guest Speaker

Adelaide Robb, M.D. holds the title of Distinguished Endowed Professor and Chair at Children's National Hospital and is a Professor of Psychiatry and Pediatrics at the George Washington University School of Medicine. She is a Board Certified Child and Adolescent Psychiatrist. Dr. Robb sees outpatients with serious Axis I disorders including major depression, anxiety, bipolar disorder, schizophrenia, autism, and ADHD for medication management. She directs a large clinical trial program in pediatric psychopharmacology for new agents being tested for FDA approval in children and teens.
