

Dear Parent,

Thank you for your interest in allowing Rady Children's Hospital to help you through your child's cochlear implant journey! This packet includes information needed to start your child on their cochlear implant Journey. We have tried to put together the resources we think you will need along the way.

Our center includes a team of providers specializing in hearing loss in kids. Their goal is to give your child the best care possible. You will have the opportunity to meet with members of the Cochlear Implant Team, including the surgeon, audiologist, speech and language pathologist, psychologist and educational liaison. We will all work together to obtain as much information as we can to help you make a decision.

We want to do what is best for your child and family. Reach out to us if you have any questions. We look forward to working with you to fulfill your hearing goals for your child.

Sincerely,  
The Rady Children's Hospital Cochlear Implant Team
