

Have you recently tested positive for COVID-19 or been exposed to someone who was?

Monoclonal antibody therapy could help reduce your symptoms and keep you out of the hospital.

Early therapy and Post-Exposure Prophylaxis for COVID-19 is available

Call (619) 685-2500 for more information or to make an appointment.

Email COVIDtreatment@sdcounty.ca.gov with any questions.

Visit www.sandiegocounty.gov/COVIDHealthProfessionals for more information.

Available at **no cost**, regardless of health insurance or immigration status.

**MARC at
Vista Community Clinic**
Vista

**MARC at
Clairemont Friendship
Center**
Clairemont

**Family Health Centers
of San Diego**
Hillcrest &
Chula Vista

Monoclonal antibodies are proteins made in the lab that help boost the immune system to fight off viruses, including the virus that causes COVID-19.

Treatment

Recently had a positive COVID-19 test, AND

Experienced first symptoms in the last 10 days, AND

In a high risk category (see below)

Post-Exposure Prophylaxis

At MARC at Clairemont Friendship Center

Preventing COVID-19 in people who have been in close contact with someone infected with COVID-19

Risk Categories Eligible for Treatment

- Age 65 or older
- Are obese or overweight, with a body mass index (BMI) of 25 or greater
- Pregnancy
- Have diabetes, chronic kidney disease, or a condition that weakens the immune system
- Have heart disease, high blood pressure, or lung disease (like asthma)
- Other medical conditions or factors (for example, race or ethnicity) that may place the patient at high risk for progression to severe COVID-19

Eligible for Post-Exposure Prophylaxis

- Not fully vaccinated **or** not expected to mount an adequate immune response to complete SARS CoV-2 vaccination AND:
- Close contact with an individual infected with SARS-CoV-2, or
- At high risk of exposure to an individual infected with SARS-CoV-2 infection in other individual in the same institutional setting (for example, nursing homes, prisons).
