

What patients are saying

"The physical therapist was incredible! The app works great and the staff is quick to respond. It's all seamless and they billed my insurance and the copay was billed via the app. This is a great service and I highly recommend it!!."

Christiano C.

"This was the best therapy I have ever received. It was great being in the privacy of my own home receiving the help that I need. Amanda was thorough in her evaluation and the work out was superb."

Sandra M.

"This was my first visit with the therapist and I must say it was great. He was very professional, knowledgeable and the few exercises in the first session made me feel better. The staff is friendly and very accommodating... So happy I found this great service. I highly recommend them..."

Evelina F.

PHYSICAL THERAPY
at HOME
POWERED BY Luna

Use insurance

Commercial insurance

We accept all major insurances.

No extra cost for receiving care at home.

Medi-Cal

We accept Medi-Cal plans.

How it works

Get matched with a therapist

Work with the same physical therapist who's an expert in your condition for every appointment.

Receive care on your schedule

Your therapist will deliver PT in-person, so getting care is safe and convenient.

Stay connected with your care team

In between sessions, your therapist can prescribe in-app exercises and answer any questions in the Luna® app.

Why on-demand physical therapy works

1:1 personalized treatments

55 minutes of dedicated therapist care at every session.

Necessary equipment comes to you

Your PT will bring a treatment table and a mobile kit.

Safe and convenient

Luna is covered by insurance and is safely delivered to you on your schedule.
