

Tech Tools

1. Zoom
 - a. The [ABCs of Zoom Polls](#)
Hint: must be signed into institutional account and have latest Zoom version
 - b. How to [create your own Zoom Poll](#)
When presenting, it helps to have a co-host who can launch the poll for you
 - c. Detail on using [Zoom Emojis](#)
Great for commitment exercises like the ECG game with “Cardiology c/s” or “D/C”
2. [Roundsy](#): an alternative for virtual small groups
 - a. Random assortment of virtual small group sessions
 - b. Automatic shuffling: conducive to meet and greet and decreases host burden
3. Poll Everywhere
 - a. How to [create a Poll Everywhere poll](#)
 - b. How to [embed Poll Everywhere questions](#) in your presentation
Hint: For PCs, you need a plug-in. For Macs, there’s a separate app.
4. Kahoot
 - a. [Kahoot](#) leads you through how to design a quiz. Audience feedback with a catchy framework.
Hint: Basics are free. Sign up for a 7 day free trial to get access to advanced options like word mapping and more complex question styles.
5. Canva
 - a. [Canva](#) is awesome for high-resolution pictures or for making infographics, charts, and logos (plenty of free content). It has a presentation option, too.
 - b. [How to make an infographic](#) in 5 steps.
 - c. Infographics are great as a study tool or to share with others. This [infographic](#) was made via Canva.
6. [Presentation design for medical educators](#): Nice summary with quick resources for how to jazz up your presentations.
7. Free sites for high-resolution pics: [Flickr](#), [Pixabay](#), [Wikimedia](#), [Morguefile](#)
8. QR codes: This [QR code generator site](#) is free and easy to use.
 - a. Copy the link you want to make into a QR code.
 - b. Go to this [site](#) and paste your link.
 - c. Download or (super simple tech alert!) take a screenshot of the QR code.
9. [Google forms](#): Great for quizzes and asynchronous audience response.
 - a. Caveat: Google products are blocked on Rady desktop computers

- b. Try this [Choose Your Own Adventure game](#) or this [Ultrasound quiz](#) to see what Forms can do

Version: 8/2022 KLPS/NMK
