

## Connecting your Omnipod 5 to Glooko

- Login to your account at PodderCentral (using computer not phone) inuletid.com
- Select Diabetes Data from the toolbar
- Select Link in line with Glooko to connect your Omnipod 5 to your Glooko account
- Under insulin pumps choose Insulet and then Omnipod 5 cloud
- If you are a Dexcom user, please choose CGM and link your account to Glooko at the start
- Enter your clinics ProConnect code when setting up the account: rchsdped
- If you are having trouble linking your Omnipod® 5 from within PodderCentral, please contact [Omnipod® Support](#).

Once connected through the onboarding process, you will be able to check your Omnipod® 5 connection status within Glooko by following the steps below:

- Select the account initials in the top right
- Select **Settings**
- In the **Apps & Devices** section, the **Omnipod® 5** button will display as **Connected**

**NOTE:** You must first connect your Omnipod 5 to Glooko within PodderCentral before you will see this option within your Glooko account.
