

## Quality Assessment and Performance Improvement (QAPI) Initiative

Rady Children's is committed to delivering the highest quality care and services to our patients and their families.

This dedication is illustrated through our collaboration with the Children's Hospitals' Solutions for Patient Safety Network as we aim to eliminate all preventable harm at Rady Children's and at children's hospitals across the United States.

To achieve our clinical quality and safety goals, we use a systematic, comprehensive, data-driven, proactive approach that allows us to make continuous improvements in the quality and safety of care and services we provide.

Description of QAPI Initiative:

In Process

Important to our patient population because:

In Process

This initiative AIMS to achieve the following goal(s):

By May of 2024, increase the use of vestibular screening test at the hearing aid consultation evaluation appointment by 50% from \_\_\_\_\_ to \_\_\_\_\_.
