- Planning/Organization/Inhibition
- Cognitive Flexibility/Shifting
- Self-Monitoring

NEUROPSYCHOLOGY EVALUATIONS

- Brain Tumor/Radiation/Chemotherapy
- Seizure Disorders
- Concussion/Traumatic Brain Injury

Rady Children's Hospital **Developmental Evaluation Clinic**

JOB SUMMARY

Position includes working under the close supervision of a licensed psychologist with the goal of independent administration, scoring, and interpretation of psychological testing for children and adolescents. Under supervision, the post-doctoral fellow develops recommendations for treatment and links children to educational and therapeutic services. Other duties include counseling families regarding assessment findings and referrals. Test administration is based on an understanding of age, culture, and developmental level. The post-doctoral fellow documents patient care in the clinical record according to regulatory agency guidelines. Includes collaborative work with pediatricians and community organizations.

MINIMUM QUALIFICATIONS:

- Doctorate Degree in Clinical Psychology
- 1 year of experience with clinical assessment of children, preferably testing children under age 6 year
- Clinical exposure to children with autism spectrum disorders
- Educational background in diagnostic assessments
- APA accredited doctoral program & internship
- Bilingual/Spanish (preferred)
